ANHUI WANNAN ELECTRIC MACHINE CO., LTD.

SPS NUREMBERG · NOVEMBER 2026

Reliable Motor Solutions for Automation & Industry

IEC / NEMA motors · Stainless steel washdown
motors · Frequency inverters · Control cabinets

COMPANY PROFILE

Founded in 1958. Built for industrial motor applications.

Anhui Wannan Electric Machine Co., Ltd. is one of China's leading electric motor manufacturers, offering a broad portfolio for low-voltage, high-voltage and application-specific motor needs.

MODELS

PRODUCT PORTFOLIO

From standard motors to complete drive solutions.

Low-voltage motors

IEC motor range from 0.12–800 kW for pumps, fans, reducers and machinery applications.

High-voltage motors

160–10,000 kW for demanding industrial applications.

Frequency inverters

0.75–1,000 kW, supporting drive and efficiency requirements.

Control cabinets

VFD and soft starter cabinets from 0.37–1,000 kW.

STAINLESS STEEL FOCUS

Washdown motors for hygienic and severe environments.

PRODUCT IMAGE

- **IEC stainless steel motors:** 304 stainless steel, H63–180 frame, 0.12–22 kW, IE3 efficiency, IP69K protection.
- **NEMA stainless steel motors:** 1/4–30 HP, IP56 / IP69K, premium efficiency, inverter duty.
- Application fit: food machinery, pharmaceutical machinery and other washdown environments.
- Features include O-ring sealing, double lip seals, epoxy varnish and anti-bacterial treatment.
